The cases reported over the weekend reflect many home owners leaving doors and windows unlocked – your locks are your first line of crime prevention defense. They are of no use to you if you do not use them.

The auto burglary cases over the weekend reflect the variety of items left inside unattended vehicles for hours, sometimes overnight. Burglars are completely willing to break windows and cause damage to look inside a vehicle that appears to be an easy target and have items to steal inside. Another handgun is on the streets due to negligent firearm storage – properly securing firearms keeps our officers and the entire community safer.
